SECTION 3 – INTEGRA LOCAL EXCHANGE SERVICE, Continued

3.7 CUSTOM CALLING FEATURES, Continued

3.7.1. Feature Descriptions, Continued

Call Forward Don't Answer

When the base station does not answer an incoming call within the time prescribed, the call is routed to a predetermined alternate telephone number or to voicemail. When activated, Call Forwarding Variable takes precedence over Call Forward Don't Answer and Call Forward Busy.

Call Forward Variable

This optional feature allows all calls directed to a telephone number to be routed to a user defined telephone number or to voicemail. The user can activate/deactivate Call Forwarding and define a telephone number where all calls will be forwarded. Calls **cannot** be forwarded to an International Direct Distance Dialing number. When activated, Call Forwarding Variable takes precedence over Call Forward Don't Answer and Call Forward Busy.

Single Number Service – Simultaneous Ring

An incoming call rings Customer's line and one additional number simultaneously. Customer activates and deactivates the feature by dialing a "star" code on their handset. If a simultaneous ring number is non-local to customer's Integra line, Customer will be assessed toll charges on their Integra line for the duration of the call when they answer an incoming call on the non-local simultaneous ring line.

(N)

Single Number Service – Sequential Ring

In incoming call rings the Customer's line and up to 2 additional numbers in sequence. Customer activates and deactivates the feature by dialing a "star" code on their handset. If a sequential ring number is non-local to Customer's Integra line, Customer will be assessed toll charges on their Integra line for the duration of the call when they answer an incoming call on the non-local sequential ring line.
